

FRIEND OF THE LAA

AirRoad provides a premium express Australia-wide delivery service. We have been picking up and delivering time sensitive items for over 15 years for many of Australia's leading companies.

Established in 1989, AirRoad is an independent Australian owned company with operations in every state and territory. We offer personalised service that fully integrates operations expertise with leading edge freight tracking technology.

AirRoad's clients include leading-name companies in IT, telecommunications, photographic, medical, electronic, automotive, pharmaceutical and engineering.

DIFOT

With a 99% audited DIFOT (Delivered In Full and On Time) AirRoad significantly reduces the time taken up by the costly process of chasing misplaced or damaged goods.

Technology

AirRoad barcodes and tracks every item. This information can be accessed via AirRoad's website (www.airroad.com.au) giving clients' real time consignment status. AirRoad also provides:

- POD images online (proof of delivery)
- 5-point scanning
- Receiver specific performance data
- Movement history reports

Security

Onsite guards and back to base alarms are a standard part of the 24 hour security service employed at all AirRoad depots. Additional security measures include:

- CCTV
- World leading Abloy locks on trailer doors
- GPS and Quick Trax tracking systems fitted to all vehicles
- Immobilisation technology if vehicle security is breached.

AirRoad Direct

AirRoad Direct, a new division of AirRoad, offers small and medium business access to the same premium express delivery service without having to open an account. Clients with infrequent interstate and regional delivery requirements are able to obtain a price estimate, make a credit card booking and even track consignments at www.airroaddirect.com.au

At AirRoad, **we deliver certainty.**
